2 510(K) SUMMARY

510(K) Summary

Pursuant to Section 12 Part (a) (i) 3A of the Safe Medical Devices Act of 1990 Quinnova Pharmaceuticals, Inc. is providing a summary of the safety and effectiveness information available for NEOSALUS Cream as well as the substantial equivalence decision making process used for NEOSALUS Cream.

Sponsor/Applicant Name and Address:

Quinnova Pharmaceuticals, Inc. 411 South State Street 3rd Floor Newtown, PA 18940

Sponsor Contact Information:

Shahbaz Khan, M.D. - Associate Director

Phone: 215-550-2005 Fax: 215-860-8265

e-mail: skhan@quinnova.com

Date of Preparation of 510(k) Summary:

February 01, 2009

New Device Trade/Proprietary Name:

NEOSALUS Cream

Device Common/Classification Name:

Dressing. Wound and Burn. Hydrogel with Drug and/or Biologic

Predicate Device/s Name and 510(k) Number/s:

NEOSALUS (K070309)

Device Description:

NEOSALUS Cream is fragrance-free, water-soluble dressing formulated for the management of various types of dermatoses including atopic dermatitis and allergic contact dermatitis. NEOSALUS Cream is intended for topical application.

Intended Use:

NEOSALUS Cream is a non-sterile formulation intended for topical application. It is intended for prescription use for the management of various types of dermatoses including atopic dermatitis and allergic contact dermatitis.

Performance Data:

The predicate device referenced is non-sterile formulation that is applied topically to relieve the symptoms of various types of dermatoses.

K090585 page 2 0 2

Conclusions:

Based on the 510(k) summaries (21CFR 807) and the information provided herein, we conclude that the new device is substantially equivalent to the predicate device under the Food Drug and Cosmetic Act.

Re: K090585

Trade/Device Name: NEOSALUS Cream

Regulatory Class: Unclassified

Product Code: FRO Dated: February 26, 2009 Received: March 9, 2009

Dear Dr. Khan:

We have reviewed your Section 510(k) premarket notification of intent to market the device referenced above and have determined the device is substantially equivalent (for the indications for use stated in the enclosure) to legally marketed predicate devices marketed in interstate commerce prior to May 28, 1976, the enactment date of the Medical Device Amendments, or to devices that have been reclassified in accordance with the provisions of the Federal Food, Drug, and Cosmetic Act (Act) that do not require approval of a premarket approval application (PMA). You may, therefore, market the device, subject to the general controls provisions of the Act. The general controls provisions of the Act include requirements for annual registration, listing of devices, good manufacturing practice, labeling, and prohibitions against misbranding and adulteration.

If your device is classified (see above) into either class II (Special Controls) or class III (PMA), it may be subject to such additional controls. Existing major regulations affecting your device can be found in the Code of Federal Regulations, Title 21, Parts 800 to 898. In addition, FDA may publish further announcements concerning your device in the <u>Federal Register</u>.

Please be advised that FDA's issuance of a substantial equivalence determination does not mean that FDA has made a determination that your device complies with other requirements of the Act or any Federal statutes and regulations administered by other Federal agencies. You must comply with all the Act's requirements, including, but not limited to: registration and listing (21 CFR Part 807); labeling (21 CFR Part 801); good manufacturing practice requirements as set

Page 2 – Shahbaz Khan, M.D.

forth in the quality systems (QS) regulation (21 CFR Part 820); and if applicable, the electronic product radiation control provisions (Sections 531-542 of the Act); 21 CFR 1000-1050.

This letter will allow you to begin marketing your device as described in your Section 510(k) premarket notification. The FDA finding of substantial equivalence of your device to a legally marketed predicate device results in a classification for your device and thus, permits your device to proceed to the market.

If you desire specific advice for your device on our labeling regulation (21 CFR Part 801), please contact the Center for Devices and Radiological Health's (CDRH's) Office of Compliance at (240) 276-0115. Also, please note the regulation entitled, "Misbranding by reference to premarket notification" (21 CFR Part 807.97). For questions regarding postmarket surveillance, please contact CDRH's Office of Surveillance and Biometric's (OSB's) Division of Postmarket Surveillance at (240) 276-3474. For questions regarding the reporting of device adverse events (Medical Device Reporting (MDR)), please contact the Division of Surveillance Systems at (240) 276-3464. You may obtain other general information on your responsibilities under the Act from the Division of Small Manufacturers, International and Consumer Assistance at its toll-free number (800) 638-2041 or (240) 276-3150 or at its Internet address http://www.fda.gov/cdrh/industry/support/index.html.

Sincerely yours,

Mark N. Melkerson
